

ISKO-UK 2017 Conference Provisional Programme

Day One: Monday 11th September 2017

08.30 Registration opens

10.00 Conference Opening and Welcome

10.10 **Session 1: Keynote address**

Vanda Broughton: The unicorn and the rhinoceros, not to mention the thesaurus: ontology and discovery in the story of knowledge organization.

Claudio Gnoli: ISKO Encyclopedia of Knowledge Organization

Poster Parade

11.05 Coffee/tea break, posters and exhibition

11.45 **Session 2: Narrative in KO has a long history**

- **Edmund Lee:** "Knowledge was their treasure" applying KO approaches to archaeological research
- **Brian Dobreski; Barbara Kwasnik:** A history of representation of humans in library practice
- **Kim Taylor; Lina Maria Zangerl:** Constructing a meta-narrative for Stefan Zweig's literary estate

13.15 Lunch break

14.15 **Session 3A: Classification and indexing – the traditional story of knowledge organization**

- **Deborah Lee:** Old schemes, new perspectives: the narrative of classification scheme analysis in the 21st century
- **Mariângela Fujita; Luciana Beatriz Piovesan Dos Santos; Maria Carolina Andrade e Cruz; Walter Moreira; Rosane Barros:** Construction and evaluation of logical hierarchical structures of indexing languages for online catalogs of libraries
- **Rodrigo de Sales; José Augusto Chaves Guimarães; Daniel Martínez-Ávila:** Dialogical elements among Harris, Dewey, Cutter, Otlet, Kaiser and Ranganathan: theoretical convergences in the history of knowledge organization

Session 3B: An evolving story for knowledge organization in the workplace

- **Paul Cleverley; Laura Muir:** Re-purposing knowledge organization systems as an epistemology: from organizing and retrieval to pattern recognition of social phenomena.
- **Ian Rodwell:** Liminal stories: how does storytelling help us make sense of liminal environments in organisational life?
- **Robert Kasenchak; Margie Hlava:** Beyond search: other uses for taxonomies (and semantic indexing)

16.00 Coffee/tea break, posters and exhibition

16.40 **Session 4: Stories linked to sounds and images**

- **Lynnsey Weissenberger:** Stories, songs, steps, and tunes: a linked data ontology for Irish traditional music and dance
- **Kristen Schuster:** Embedded metadata and image retrieval: a critical case study
- **André Ynada Dos Santos; Daniel Martínez-Ávila; José Augusto Chaves Guimarães:** Ethical issues in the analysis and representation of images: a content analysis of the ISKO meetings proceedings
- **Pauline Rafferty:** Disrupting the metanarrative: a little history of the management and retrieval of images

18.20 Close of Day One

18.30 **Informal Reception**

ISKO-UK 2017 Conference Provisional Programme

Day Two: Tuesday 12th September 2017

08.30 Registration opens

9.00 Session 5: False narratives: developing a KO community response to post-truth issues

- **Dave Clarke:** Scoping out post-truth issues and how might KO help
- **Nick Poole:** Why 'Facts Matter' – evidence, trust and literacy in a post-truth world
- **Panel Discussion**

10.30 Coffee/tea break, posters and exhibition

11.10 Session 6: Narratives built through Linked Data

- **Jo Kent:** ADA: Creating journeys through the BBC Radio archive using linked data
- **Marcia Zeng; Philipp Mayr:** Knowledge organization systems (KOS) in the semantic web: is the whole greater than the sum of its parts? - A multi-dimensional review
- **Dave Clarke:** Using KO to interrogate stories in the news

12.30 Lunch break and Book Draw

13.50 Session 7A: Towards the building of narratives

- **Dagobert Soergel:** Towards a general ontology for describing processes, events, and stories / narratives
- **Marianne Lykke; Sarai Løkkegaard; Tanja Svarre:** Experience-oriented knowledge organization for the transference of scientific knowledge from universities to SMEs
- **Luciana Corts Mendes; Amanda Pacini de Moura:** Narrative as a key element of knowledge organization

Session 7B: Narratives built through social media

- **David Haynes:** Discourse about knowledge organization on Twitter – a narrative on current themes
- **Lala Hajibayova:** An investigation of user-generated book reviews: Goodreads or Badreads?
- **Andreas Ledl:** The BARTOC story: from blog to basic to full terminology registry

15.20 Coffee/tea break, posters and exhibition

16.00 Session 8: Narratives built around the world

- **Jiří Pika; Célia da Consolação Dias:** Faceted-based development for concise map classification – ten-country study
- **Zhixiong Zhang; Ying Wang; Hui Sun; Feng Lei:** Organization and exploration fine-grained historical knowledge of contemporary China-based on semantic mining
- **Roberta Cristina Dal' Evedove Tartarotti; Paula Regina Dal' Evedove; Mariângela Spotti Lopes Fujita:** Indexing policy in a collaborative environment: an analysis in Brazilian digital libraries
- **Marcio Victorino; Maristela Holanda; Edson Ishikawa; Edgard Oliveira:** Transforming open data to linked open data using ontologies for information organization in big data environments of the Brazilian government

17.20 Closing remarks from ISKO UK

17.30 Close of Conference

ISKO-UK 2017 Conference Provisional Programme

Posters

Shu-Jiun Chen: Leverage keywords of early Chinese periodicals' images: towards a knowledge organization system, contextualization and visualization.

Andreas Ledl: The BARTOC story: from blog to basic to full terminology registry
